

## Reflective log – Module 4

The TSM Toolkit is a reflective process. Your understanding and thinking about its key themes and ideas are going to grow as you work through the modules. You don't have to share this log or write a lot, it is just a tool to help you reflect on everything from the session. It can be rough notes, bullet points, diagrams, a voice note or however you like to record your thoughts.

**How do you feel about the narrative shortlist that you have chosen for the co-creators?**

Do you have any preference about which narrative they pick or on what the outcome will be? How will you feel if they don't choose your preference?

Is there anything else that you're thinking about?
